**Subject:** Re: thank you for this morning

sgt walker, the camp at our construction corner is not only still there, but has grown over night. they are breeding pitbulls, obstructing our sidewalk, have piles of camp building materials in the street, not to mention an indecent amount of human feces and dog feces. our construction begins this morning at 7am. we need to be able to unload vehicles and carry materials along this path. our seafood neighbors also use this path to transport goods to and from each other. could we please move them by then? they are located where we have our sidewalk use permit and our street use permit.

sorry again to have to ask you for these types of services, miguel

my understanding is that sanitation has given LAPD the resources for this? anyways, he's in an area that is dangerous construction zone with sidewalk and street use permits. please help us asap. plus, he's breeding pit bulls and has much more than 60 gallons, maybe 360 gallons and much of it is even stacked in the street in a commercial loading zone where we have our street use permit.

As you know, LA San will have to be the lead with this request. They may have to post as well.
